CAREER OBJECTIVE

Aspiring Python Developer skilled in Python, JavaScript, and web development with a strong focus on problem solving. Passionate about building practical, user-centric applications and continuously learning modern tools and technologies. Committed to working on real-world projects, improving technical expertise, and growing through hands-on experience. Eager to collaboration and dedicated to delivering effective, solution-oriented results.

EDUCATION

Bachelor of Technology (B-Tech) – Computer Science (AI)

Madanapalle Institute of Technology & Science, Andhra Pradesh

2023 – 2027

Higher Secondary Education (MPC)

Sri Siddhartha Junior, Madanapalle, Andhra Pradesh

2021 – 2023

Percentage: 94.2%

Matriculation (SSE)

Vijaya Bharathi English Medium High School, Madanapalle, Andhra Pradesh

2020 – 2021

Percentage: 100%

INTERNSHIP

Full Stack Development Intern (with NLP)

Duration: 8 weeks

June 2025 – Aug 2025

- Gained hands-on experience in Python, JavaScript, API integration, text processing, and application development.
- Developed an AI-powered News Authenticity Detection System using Machine Learning and NLP techniques.
- Built a Recipe and Dish Chatbot capable of providing recipes, ingredients, nutritional information, and dish details through API integration.
- Collaborated on practical assignments and real-world problem-solving activities to strengthen technical and analytical skills.

PROJECTS

DineFlex | Node.js, Express.js, MySQL, HTML, CSS, JavaScript

- Developed a restaurant reservation system with table booking, online payments, email confirmations, and restaurant browsing features.
- Implemented secure authentication, role-based access control, and a Super User panel for managing restaurants, customers, bookings, and system operations.
- Integrated Razorpay for payment processing and Brevo for automated booking confirmations and user notifications.
- Built AI-powered assistants for users and administrators to handle restaurant queries, reservation support, and platform management tasks.

AgriVision | React.js, Node.js, Express.js, Gemini AI, JSON Database

- Developed an AI-powered smart farming platform with leaf disease detection, crop advisory, fertilizer recommendations, and yield prediction features.
- Integrated Google Gemini AI to provide personalized agricultural insights, disease analysis, and an intelligent agronomist chatbot for farmer support.
- Implemented secure authentication, role-based dashboards, activity logs, notifications, and analytics for farmers and administrators.

ResumeRank | Python, Flask, MongoDB Atlas, HTML, CSS, JavaScript

- Developed an AI-powered recruitment platform with resume parsing, candidate ranking, job matching, and recruiter dashboards.
- Implemented AI-based resume screening, candidate recommendations, and skill matching using NLP and machine learning techniques with MongoDB Atlas for data management.
- Built secure authentication, resume management, analytics, and intelligent hiring insights to streamline the recruitment process.

Document Security System | *Python, Flask, HTML, CSS, JavaScript*

- Developed a document security platform with document scanning, fake news detection, threat analysis, and security report generation.
- Implemented OCR, image processing, and machine learning techniques to identify harmful content and assess document risks.
- Built an interactive dashboard with security analytics, threat visualization, and report management for efficient document monitoring.

CERTIFICATIONS

- Machine Learning A–Z: AI, Python & R + ChatGPT Prize [2026] – *Udemy*
- Databricks Accredited Generative AI Fundamentals – *Databricks Academy*
- Full Stack Development with NLP Internship Certification – *StudyOwl Education Private Limited*

ACHIEVEMENTS

- Winner, GUVI Hackathon 2026 – Awarded ₹10,000 cash prize.
- Top 15 Finalist, Make for Madanapalle Hackathon.
- Participated in the National Conference on Engineering, Innovation, and Management (Paper Presentation), 2025.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript

Web Technologies: Node.js, Express.js, React.js, HTML, CSS

Databases: MySQL

Tools & Platforms: Git, GitHub, VS Code, MySQL Workbench

Libraries & Frameworks: Flask, React.js

UI/UX Design: Figma, Wireframing, Prototyping
